Overview:

Studio Character is an animation production company from BRAZIL dedicated to creating captivating and innovative visual experiences. With a passion for visual storytelling, we combine art and technology to bring to life stories that resonate with audiences by bringing Brazilian culture and language to life.

Mission:

Connect with artists and creators and make their projects universally accessible.

Vision:

To be a collaborative company, fulfilling dreams, to be recognized for valuing culture and positively impacting the world.

Value:

Cultural Valorization: We believe in the importance of preserving and celebrating Brazil's rich cultural diversity. Our productions not only reflect, but also enhance the traditions, histories and artistic expressions that are part of our cultural heritage.

Artistic and Technical Excellence: We relentlessly seek excellence in every detail, both artistic and technical. We are committed to creating animations that not only visually delight, but also raise the standards of Brazilian animation art.

Creative Innovation: We embrace innovation as an integral part of our creative process. We are constantly exploring new techniques, styles and approaches to telling stories in unique and impactful ways.

Collaboration and Connection: We value collaboration and connection between creative minds. We believe that great projects are born from synergy between passionate and talented individuals, united by a common goal.

Main Competencies:

3D Animation: Experts in creating immersive and realistic 3D animations. Our passionate and creative team transforms concepts into three-dimensional reality, bringing characters, settings and stories to life in extraordinary ways. With modeling, texturing and animation skills, we create a world where imagination comes to spectacular life.

Art Direction: Development of unique and aesthetically appealing visual concepts. Master of visual language, we transform ideas into impactful images. Combining artistic talent and unique vision, he brings unique concepts to life for animation, games and visual projects.

Motion Capture: We are experts in transforming human movements into realistic and captivating animations. With cutting-edge technology and an experienced team, we capture every nuance and expression, creating results that seem to pop off the screen. From film to the gaming industry, our mocap service redefines the way visual storytelling is told.

Studio Management:

Henrique Machado Júnior, founder of Studio Character, responsible for managing the Studio and productions. Graduated in Game Design from Univali in 2017, specialist in Animation with 12 years of experience. Project leader from start to finish, coordinating teams and excellent at meeting deadlines. Experienced, ethical artist, passionate about art, music and stories.

Fernando Wagner, Animation Director, graduated in Advertising (Unisul) and MKT from FGV, has worked in Production and Cinematography for 20 years. He delved into the 3D universe in 2010 with creation, character development and animation, which led him in 2018 to study Motion Capture Animation at the Royal College of Arts. Manage motion capture and mocap cleaning techniques, resulting in the production and direction of films at Unreal Engenie.

Fabiano Pacheco Barbieri, Art Director, Conceptual Artist, Illustrator and Industrial Designer. Graduated in Industrial Design from UNIVALI in 2003, Master in Design/Human Factors from UDESC, he has 17 years of experience in the area of Creative Design, with 14 years dedicated to the development of projects, Concepts, idealizations, illustrations for the entertainment and advertising market. Bodyboarder, martial artist and musician in his spare time, passionate about traditional art, the history of humanity, polyglot due to his stubbornness.
